

## God Of The Stratosphere

1

God of the stratosphere, sun, moon and planets,  
 planner, creator, of function and form,  
 God of the mystical, God of the physical,  
 felt in the heartbeat of stillness and storm.

2

God the approachable, closer than breathing,  
 spirit indwelling, our strength and our guide,  
 God inspirational, focus of thinking  
 light ever shining no darkness can hide.

3

God the invisible, presence all-seeing,  
 spirit enabling, our helper and friend,  
 God of all hopefulness, never despairing,  
 constantly caring, whose love has no end.
